

COLLAGE INQUIRY...?’

How do we take several mediocre photos and make them into a Classic Collage?
Colour Correcting, Cropping and Passion!

These become....

COLLAGE INQUIRY... ?'

Less photos this year for many dogs

The 2010 Ontario Regionals were the most challenging conditions we have photographed in Agility over the past 10 years. Resulting in an unheard of 30-35% “deleted” photos for many dogs. WHY?

SUNSHINE!! The worst lighting for agility photos. Blacks lose details, whites are blown out, eyes are in shadows, handlers & equipment cast shadows across dogs and course lighting changes every minute the sun moves. Unfortunately the photographers can not move when the shadows change.

HOWEVER! Photos you view do have the potential to become many of the print or designs we offer. With some “tweaking and/or manipulate” our photos still can produce many different quality prints. We strive to capture the best photos possible and will work with you to create a lasting memory of your 2010 Ontario Regionals experience.

Do not hesitate to email me if you have any questions..... i will reply as soon as all the dogs are posted.
